

MOVING ANIMALS IN/AROUND/OUT OF THE SALE RING

By positioning yourself on the boundary of the flight zone at, or slightly behind, the point of balance and to one side, the animal will not move. To persuade the animal to move forward, step into the flight zone behind the point of balance. If you stand at point **B**, the

animal should circle the sale ring with little need for persuasion. To stop the animal moving forward, step back out of the flight zone **A**.

Keep the entry and exit points to the sale ring clear of obstructions. Only the drover and/or the owner of the animal should be allowed in the sale ring.
